HUMAN-FACTOR ENGINEERING IN AI & ROBOTICS

DESCRIPTION
- To appreciate and be concerned with the practice and principles of develop quality solutions in AI and Robotics, and
- To understand the specifications, design, development, integration, maintenance & operation of intelligent systems

EXPECTED OUTCOME
- Awareness of best practices in developing quality AI & Robotics solutions
- Understanding the methodology and transformation journey of Intelligent systems

| TOPIC	PRESENTATION	PRESENTERS	TIME
Welcome	Importance of Human Factor Engineering	**Ms Elle Quan** **Mr Oliver Tian** *Founder & Director, Oliver Tian Associates, Singapore*	13:00
Specially Invited Speaker	Quality Considerations for Human-Centric Computing	**Dr Helena Webb** *Assistant Professor* *University of Nottingham, UK*	13:30
Invited Speaker	Human + Machine: Mastering the Future of Work Economy	**Mr Manish Bahl** *VP & Strategic Advisor* *Cognizant, India*	13:50
Program Speakers	Trusting Machines to Deliver	**Mr Arthur Lim** *Head QE & A* *Cognizant, Singapore*	14:10
	The Case of Digital Branding	**Mr Carwin Heierman** *Founder, Rodller* *Director of Operations, Hoozin, France*	14:30
	The Importance of Human Factors in Medica AI	**Dr Tan Jit Seng** *Director & Co-Founder* *Lotus ElderCare, Singapore*	14:50
Panel Discussion	Topic: Embedding Quality Assurance in Solutions on AI & Robotics	**Moderator: Mr Oliver Tian** - Mr Manish Bahl - Mr Arthur Lim - Mr Carwin Heierman - Dr Tan Jit Seng	15:10

9th September 2021, 1pm-4pm (SGT)
Webinar Code: 0909 - AIHF
